

BookData Online

The definitive search and selection service

BookData Online is a professional online bibliographic search tool used by libraries, both public and academic, and library suppliers worldwide. BookData Online provides a unique source of timely, accurate and comprehensive information for books and other published media. This coupled with BookScan sales ranking provides you with an unequalled search tool.

There is a choice of UK & Ireland or International coverage.

UK & Ireland: Over 5 million English-language titles published or distributed in the UK, Ireland and Europe.

International: Over 7.5 million English-language titles published or distributed in the UK, Ireland, Europe, US, Australia, New Zealand and South Africa as well as data collected from a further 70 countries.

We present our records in a concise manner - each record carries all territorial and pricing information for each market under one unique ISBN.

Records contain:

- Price and availability
- Subject classifications: Library of Congress, Dewey Codes, Readership Levels & BIC Subject Classifications
- Descriptions
- Tables of contents (where applicable)
- Wholesaler stock identified: UK, US (Baker & Taylor and Ingram)
- Publisher and distributor details
- Jacket/cover images
- Out-of-print titles

Special Features:

- Search using Quick Find, Advanced Search, Supplier Search and Bulk Search
- Create and store lists which can then be emailed, downloaded or printed in various formats
- Personalise your account, search forms and how you view your results
- Download UKMARC and MARC21 records
- Sort your search results by BookScan chart position
- Set up New title alerts for your popular search criteria
- Use Search History to retrace your last 50 searches

"We have been using BookData Online since June 2007 and have been very impressed by its search facilities and the wide range of information presented against each title. We have also experienced a very high hit rate in our searches for a range of stock categories."
