

Chest Agreements 2010

Software and Library Resources
for Higher Education

Licence Negotiation

eduserv

Welcome . . .

To our 2010 Chest Agreements catalogue. In the following pages you will find information on all the current software and library resources available through specially negotiated Chest Agreements.

At Eduserv we've been working closely with universities for more than 20 years and we're pleased that, with this support, we continue to deliver agreements that offer value for money and appropriate licence terms and conditions. In addition to more familiar agreements, details of the latest additions are included in this catalogue: Camtasia Studio, CyberLink, Marketing Mentor, OECD iLibrary, Ulrichs and Passport GMID.

For complete details, including pricing, please visit our website www.eduserv.org.uk/licence-negotiation.

If you don't find what you're looking for, then please let us know. We want to continue working with you to negotiate more and even better Chest Agreements. Please contact us with your suggestions for new agreements.

You can also post your requests for new agreements at www.eduserv.org.uk/wishlists or join one of our focus groups. Regular meetings with the academic community help us to keep up to date with your changing licensing requirements and to ensure that our Chest Agreements continue to meet your needs.

We look forward to continuing to work closely together.

Software

Microsoft

Chest Agreements with Microsoft

The licences supplied under the Chest Microsoft Agreements are delivered by a number of resellers. These resellers were chosen after a tender exercise against criteria agreed with Higher Education representatives. The pricing and the value-added services offered by the chosen resellers are listed on the website at the links given below.

Microsoft Campus

The Eduserv Microsoft Consortium Campus Agreement offers smaller universities the same preferential pricing for non-perpetual (or subscription) licences, that are offered to universities with over 3,000 FTE staff. As well as significant savings, smaller institutions benefit from simpler administration, a single annual payment and easier software deployment. There is an annual fee to join the scheme.

 www.eduserv.org.uk/mscampus

Microsoft Select

The Eduserv Microsoft Select Agreement allows all universities to use “pay-as-you-go” to purchase Microsoft products in perpetuity without having to commit to buying large numbers of licences. There is an option to add Microsoft Software Assurance and to use the Microsoft Student Purchase Scheme. There is an annual fee to join the agreement.

 www.eduserv.org.uk/msselect

Adobe

Adobe Master CLP

Universities can purchase perpetual licences and maintenance for Adobe’s most popular industry-standard software such as Flash, Acrobat, Photoshop, Indesign, Illustrator and Dreamweaver under this agreement. It offers volume software licensing for Adobe products to all universities at the highest discount available regardless of their size or spend. Savings for a typical university not currently on the highest tier of discount are 40%. There is an annual fee to join the agreement.

 www.eduserv.org.uk/adobe

Training and Support

Education Support Centre

ESC provides technical support for Microsoft technologies, including all products covered by the Microsoft Campus and Select Agreements. ESC is a not-for-profit organisation based at Nottingham Trent University, making it uniquely placed to support the academic community. By joining this agreement universities receive 10% off the ESC list price.

 www.eduserv.org.uk/ESC

PTR Associates Classroom Training

Receive 33% off the list price when signing up for technical training courses from PTR Associates. Courses are available in the areas of:

- Data communications and networking
- Internet and intranet
- Programming languages
- Windows
- Unix and Linux
- Databases

PTR also offer customised courses at their training centre or on-site.

 www.eduserv.org.uk/PTR

Desktop applications

1. Geographical Information Systems (GIS)

ENVI

ENVI is software for processing and analysing geo-spatial imagery. This agreement offers an unlimited site licence, covering both teaching and research. Universities can save up to £25,000 per annum subscribing to ENVI.

www.eduserv.org.uk/envi

ERDAS Imagine and ER Mapper

ERDAS Imagine is geospatial data authoring software that allows different types of geographic data to be mapped and visualised. Data can be combined with imagery and organised for projects.

ER Mapper software provides advanced geospatial image processing and compression capabilities.

Both software packages are included in the site licence. Other ERDAS products are also available under this agreement.

www.eduserv.org.uk/erdas-ermapper

ESRI

A variety of options and packages of ESRI GIS software are available. The agreement includes ArcGIS, an integrated collection of products for spatial analysis, data management, and mapping. Full support is provided. Universities also have the opportunity to join the ESRI Steering Group and attend the annual ESRI Technical Event.

www.eduserv.org.uk/ESRI

PCI Geomatics

Geomatica, from PCI Geomatics, is an integrated desktop software system that features remote sensing, digital photogrammetry, geospatial analysis and map production. This agreement provides 70% discounts off list price, unlimited site licences with fixed and transparent pricing.

www.eduserv.org.uk/PCI

Collins Bartholomew Digital Mapping Data

This mapping data is provided in raster or vector format. There is extensive coverage, at various scales:

- London
- Great Britain
- Ireland
- Europe
- The World

Savings of up to 84% off the list price are available to universities joining through the Chest Agreement.

www.eduserv.org.uk/collinsbartholomew

Isle of Man Survey Digital Mapping Data

Digital maps and geographic information for the Isle of Man are provided free of charge.

www.eduserv.org.uk/iom

Desktop applications

2. Maths and Statistics

MapleSoft

The MapleSoft product family of advanced mathematical and analytical software allows users to solve mathematical problems and create technical applications. This agreement provides fixed pricing for three years with special discounts for smaller universities.

www.eduserv.org.uk/maplesoft

Maths library resources

See our Chest Agreement for MathSciNet database from the American Mathematical Society on page 11.

Ongoing negotiations

Negotiations with SPSS and Mathematica are ongoing.

Visit our website for updates:

www.eduserv.org.uk/licence-negotiation

SAS

SAS provides business analytic software for:

- Data access
- Management
- Statistical analysis
- Visualisation
- Reporting

This agreement provides the Education Analytic Suite package of commonly used SAS products at significantly discounted prices.

www.eduserv.org.uk/SAS

“I remain very grateful to Eduserv for its work in negotiating and administering such agreements to give us access to software that we couldn't afford otherwise.”

Robert Paynter,
Computing Manager, University of Greenwich

Desktop applications

3. Other software

Advanced Visual Systems

AVS/Express provides a versatile data analysis tool which allows non-programmers and experienced developers to analyse and visualise large complex datasets. A site licence is exclusively available through this Chest Agreement.

 www.eduserv.org.uk/AVS

Cyberlink Power2Go Academic

Cyberlink Power2Go Academic is CD and DVD burning software for Windows PCs. The software supports drag-and-drop burning, mixed media disks and 128-bit encryption.

The agreement offers an unlimited site licence which includes staff and student home use rights. Pricing is banded and based on staff numbers.

 www.eduserv.org.uk/cyberlink

Camtasia Studio and Snagit

These products from TechSmith are used for screen recording and screen capture. Camtasia allows users to record onscreen activity, edit it into a video, and share with others. The software can be used to create videos for teaching, training, or just for fun! With Snagit users can take a 'snapshot' of anything on their PC screen. This agreement is unique in offering subscription based licences for a fraction of the cost of perpetual ones.

 www.eduserv.org.uk/camtasia

EndNote and Reference Manager

EndNote, EndNote Web and Reference Manager are time-saving software products which allow students, lecturers, and researchers to search libraries for references, create and manage their own databases, and instantly generate in-text citations and bibliographies. Annual site licence charges are banded according to the size of the institution.

 www.eduserv.org.uk/thomson_scientific

MindGenius

MindGenius is a mind mapping application that can be used by individual students and lecturers to capture and visualize their ideas. Teams can collaborate over essays, projects, presentations, study, mind mapping, and lesson planning. Available with a 50% discount off the academic list price.

 www.eduserv.org.uk/mindgenius

NVivo and XSight

NVivo and XSight are qualitative (non-numerical) research software applications. They provide purpose built tools for classifying, sorting and arranging information. Users can analyse data and discover patterns, identify themes, glean insight and develop meaningful conclusions. NVivo supports video, most document formats, digital photos and audio files. The agreement provides an unlimited site licence with fixed prices.

 www.eduserv.org.uk/QSR

UNIRAS and OpenViz

This longstanding agreement offers UNIRAS, which includes Gsharp and Toolmaster graphics applications, and OpenViz a data visualisation engine designed to provide highly interactive visual analysis to business applications. The site licence is 66% cheaper than a one-user licence direct from AVS.

 www.eduserv.org.uk/uniras

ViewletBuilder

ViewletBuilder is an authoring tool used to create compelling, animated online Flash presentations with ease. Significantly discounted pricing is available for a perpetual site licence, supported until 30 June 2011.

 www.eduserv.org.uk/viewletbuilder

Software continued

Infrastructure and Enterprise

Exceed

Open Text (previously Hummingbird) offers connectivity and terminal emulation software for centralising information, applications and resource access, making information easier to find. The products available are:

- Exceed
- Exceed 3D
- Exceed on Demand
- Host Explorer
- NFS Maestro Solo
- NFS Maestro Server
- BI Query
- Connectivity Secure Shell software all at significant discounts.

www.eduserv.org.uk/opentext

Ingres

Ingres is an open source database management system. It is a leader in supporting business critical applications and the management of demanding enterprise applications. This agreement offers support for mission-critical applications. A subscription can save universities thousands of pounds per year.

www.eduserv.org.uk/ingres

Licence Dashboard

Licence Dashboard Enterprise Edition from Phoenix is a software licence management tool for universities. The agreement offers an exclusive site licence and cost-effective, transparent pricing.

www.eduserv.org.uk/dashboard

Ongoing Negotiations:

- Sassafras
- Sophos
- VMware

Security

F-Secure

F-Secure offers a range of anti-virus solutions that protect workstations, client and file servers or complete enterprises against viruses, trojans, spam, worms, spyware and network intrusions. A fully supported site licence, including home use rights for staff and students is available. Prices are heavily discounted.

www.eduserv.org.uk/fsecure

Kaspersky

Kaspersky Anti-Virus products, including Business Space Security, Enterprise Space Security, and Total Space Security, are available through this agreement. Licences come with 24/7 support and home use rights for staff and students at especially negotiated prices.

www.eduserv.org.uk/kaspersky

“By subscribing to Chest Agreements, we received improved terms and conditions and approximately 50% discount compared to other quotes. In particular, the site license arrangement ensured that we can utilise this solution widely without the concern, inconvenience or cost of counting nodes.”

Sandra Stafford,
Natural Environment Research Council

Multidisciplinary

Emerald Journals Backfile

The backfile provides a full-text digital archive of over 120 journals across a wide range of disciplines. Titles are purchased in perpetuity. Particular journals date back as far as 1898 and, in some cases, content is included up until 2006. There is a one-off purchase fee for the complete backfile.

www.eduserv.org.uk/emerald-backfile

Emerald Social Sciences eBook Collection

This full-text social science eBook collection is purchased in perpetuity for a one-off fee. The collection has over 210 volumes from 35 book series. It includes titles in the fields of politics, psychology, sociology, health care and education.

www.eduserv.org.uk/emerald-soc-sci

ProQuest CSA Subject Collections

Abstracts and indexes from ProQuest's arts and humanities, social sciences and technology and natural sciences collections enable users to discover, identify, manage and organise information. Universities benefit from savings of at least 32% off the academic list price.

www.eduserv.org.uk/proquest-CSA-HE

Proquest Full Text Collections

Subscribers receive access to the full-text arts and humanities and social sciences databases from ProQuest CSA. Titles include scholarly peer-reviewed journals and selected trade and consumer publications.

www.eduserv.org.uk/proquest-full-text

OECD iLibrary

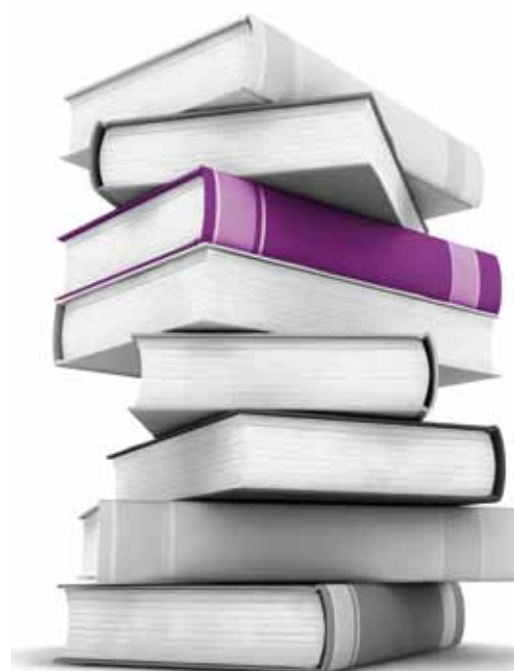

OECD iLibrary

OECD iLibrary offers integrated access to all statistical databases, journals, books and working papers published by the Organisation for Economic Co-operation and Development (OECD). With 17 major subject areas, the OECD iLibrary is a multidisciplinary resource designed for students, researchers and lecturers who need to access socio-economic data and analysis. The new OECD iLibrary is available at a special consortium price.

www.eduserv.org.uk/oeed

More Library Resources

Chest Agreements for digital mapping data are found on page 4.

Library resources continued

Psychology

APA Databases

Full-text databases published by the American Psychological Association (APA) are available at significantly discounted pricing:

- PsycARTICLES - articles from APA journals.
- PsycINFO - database of psychological literature from 1800s to the present day.
- PsycBOOKS - database of books and chapters from the APA.
- PsycEXTRA - a gray literature database.
- PsycCRITIQUES - combines a weekly release of book and film reviews with a searchable database.

Service provision costs were reduced by up to 66% by undertaking a tender exercise.

www.eduserv.org.uk/APA

APA eBooks

This agreement provides the flexibility to purchase APA eBooks in electronic format for a one-time purchase fee. The eBooks collection includes full-text content in psychology and related disciplines including: medicine, psychiatry, nursing, sociology, education, pharmacology, and neuroscience. For a single one-off fee, universities own the eBooks in perpetuity, including 2009 content.

www.eduserv.org.uk/APA_e-books

“Thanks to Eduserv’s negotiations, we will save 75 % on the cost of the service fee for subscribing to APA resources for researchers studying psychology and related subjects.”

Ross Hayworth,
Serials and Electronic Resources Manager,
University of Aberdeen

Business and Marketing

Emerald Business Management and Economics Book Collection

This collection of over 370 eBooks is purchased in perpetuity with unlimited access. They feature relevant, international and trusted content in many fields including strategy, economics and accounting, and finance. The price is lower if the collection is purchased with other Emerald products.

www.eduserv.org.uk/emerald-bme

Emerald EMeJ

Subscribers are offered a range of different collection sizes of high quality, peer-reviewed, business and management journals. Key titles include: Management Decision, European Journal of Marketing, Leadership and Organization Development Journal, Journal of Consumer Marketing and Library Management.

www.eduserv.org.uk/emerald-emej

Emerald Management First

Management First is an online business and management library. It provides easy access to high quality, full text, regularly updated articles, case studies, and interviews. It also provides reviews of articles from the world’s leading management journals. A subscription gives unlimited access.

www.eduserv.org.uk/emerald-man-first

Related Chest Agreements

We also offer agreements for NewsBank on page 12 and Emerald Backfile page 7.

Business and Marketing

Passport GMID

Passport GMID provides 17,000 market research reports including internationally comparable statistics and analysis across different industries, countries and consumers. Passport GMID supports teaching and research across a range of disciplines. Prices are fixed for the three year licence period.

www.eduserv.org.uk/gmid

Marketing Mentor

Marketing Mentor is a toolkit of best practice in marketing which provides users with the practical knowledge and advice they need to work with confidence in marketing. Subscribers are offered very significant savings for a site licence. Pricing is in three size bands and fixed for three years.

www.eduserv.org.uk/marketingmentor

Research for Libraries

Students and researchers in business and marketing studies can access four online databases:

- Business Insights provides access to strategic management reports.
- MarketLine contains market research profiles, company SWOT analyses, company profiles, country profiles, base drivers, consumer graphics, and financial deals databases.
- Access Asia provides market intelligence for institutions seeking reliable information on this emerging market.
- Verdict Research provides unrivalled insight into the retail market.

Products are priced separately and are based on a three-year licence commitment.

www.eduserv.org.uk/researchforlibraries

“The Chest Agreement for the Research for Libraries databases will save us a considerable sum compared with fees negotiated directly. We know in advance what the fee will be for the next three years and can budget accordingly. It is also good to know that the terms and conditions are those of standard Chest Agreements. It was a pleasure to deal with the staff at Eduserv.”

Helen Rhodes,
Management Subject Librarian,
University of Bath

Library resources continued

Engineering

ASTM

The complete American Standards and Test Methods (ASTM) library of books, manuals, monographs, journals, special technical publications and peer-reviewed papers are available online. These resources provide high quality information covering a broad range of engineering disciplines. Subscribers benefit from 40% savings on their site licence.

www.eduserv.org.uk/ASTM

Emerald International Civil Engineering Abstracts

The Emerald International Civil Engineering online database gives instant access to article abstracts of the world's 150 leading civil engineering journals, covering all major subject areas.

www.eduserv.org.uk/emerald-icea

EI Compendex and Backfile

Compendex is one of the most comprehensive engineering interdisciplinary literature databases available to engineers. It covers over 11 million records across 190 engineering disciplines from more than 5,600 scholarly journals, trade magazines and conference proceedings. It is available on the Engineering Village information discovery platform. Subscribers save up to 28% on site licences compared to prices outside this agreement.

The Engineering Index Backfile, with coverage from 1969 to 1884, is also available for a one-off fee under this agreement.

www.eduserv.org.uk/ei-compindex

Emerald Engineering

Emerald Engineering is an online database of abstracts and full text articles on engineering, materials science and technical subjects from Emerald's journals. It is fully searchable. A subscription through this agreement gives major savings compared to the costs of individual journal subscriptions.

www.eduserv.org.uk/emerald-engineering

ESDU Validated Engineering Data

ESDU provides validated information, data and techniques needed by engineering students and researchers to continually improve their designs and analyses. Users can explore and optimise iterations and validate their final designs more quickly and easily. Up to 50% discounts off the list price. A number of flexible licensing options are available.

www.eduserv.org.uk/ESDU

IET Digital Library

The IET (Institution of Engineering and Technology) Digital Library holds more than 95,000 full-text technical papers from all IET journals, magazines, conference publications and seminar digests. Flexible licence periods are offered with significantly discounted prices.

www.eduserv.org.uk/iet-digital-library

Inspec

Inspec, from the IET, contains over 11 million bibliographic abstracts and indexing to journals, conference proceedings, technical reports and other literature in the fields of science and technology. A saving of at least 15% off the academic list price is available to universities.

www.eduserv.org.uk/inspec

Referex

Referex is a fully searchable engineering reference database of 1,900+ premium engineering e-books. Collections include:

- Chemical, Petrochemical and Process
- Materials and Mechanical
- Security and Networking
- Electronics and Electrical
- Computing
- Civil and Environmental

The agreement offers a one-off perpetual purchase price with savings of up to 45%.

www.eduserv.org.uk/referex

Science and Technology

Emerald Computer Abstracts International Database

This online database provides access to over 190,000 abstracts, dating back to 1987, from the 200 foremost journals in computer science. Subject areas include:

- Artificial intelligence
- Communications and networks
- Computer theory
- Database and information systems
- Hardware
- Programming
- Systems organisation

 www.eduserv.org.uk/emerald-caid

MathSciNet

MathSciNet is a comprehensive database from the American Mathematical Society covering the world's mathematical literature since 1940. It provides web access to bibliographic data and reviews of mathematical research literature. 42 universities belong to the Chest Agreement consortium. New members help to reduce the cost for all members and they benefit from significantly lower charges in their first year.

 www.eduserv.org.uk/mathscinet

New Scientist

NewScientist

New Scientist online is an important reference tool which gives users instant access to relevant and up-to-date science and technology content from the popular magazine. A subscription gives unlimited access to the current magazine plus archived editions going back to April 1989. Universities benefit from 25% discounts on subscriptions.

 www.eduserv.org.uk/newscientist

SciFinder

SciFinder is a research discovery tool that allows students and researchers to access a wide diversity of research from many scientific disciplines. This includes: biomedical sciences, chemistry, engineering, materials science and agricultural science provided by CAS, a division of the American Chemical Society.

 www.eduserv.org.uk/scifinder

Springer eBook Series

Lecture Notes book series are available in:

- Computer Science
- Mathematics
- Physics

Springer eBooks offer accurate reproductions of high quality print book publications, with all the added benefits of the online environment.

 www.eduserv.org.uk/springer-books

SpringerMaterials

SpringerMaterials, previously the Landolt-Börnstein databases, provides a comprehensive collection of physical science and engineering data. The new web platform provides selected and critically assessed data explained in their scientific context. Universities subscribing through the agreement can save up to 45% off the list price.

 www.eduserv.org.uk/springermaterials

Library resources continued

Reference

Brill Major Reference Works

This agreement offers eBooks in a number of subject areas: history, religion, Islamic studies, Asian and classical studies.

Subscribers benefit from significant discounts to a number of major reference works, including:

- Encyclopaedia of the Qur'an Online
- Brill's New Pauly
- Encyclopaedia of Islam Online

 www.eduserv.org.uk/brill

Springer Major Reference Works

Over 100 of Springer's major reference e-Books, covering a wide range of subjects in science, business, engineering, medicine and humanities, are offered at discounts of up to 36%. eBooks are purchased in perpetuity with an unlimited site licence.

 www.eduserv.org.uk/springer-mrw

You may also be interested in our Chest Agreement for Referex on page 10.

NewsBank Newspapers Collection

NewsBank offers a wide range of newspapers online, with significant historical archives.

The Access UK & Ireland Newspapers package includes:

- 50 national and regional newspapers from 1998 to current.
- Coverage of The Financial Times dating back to 1996.
- The Times archive from 1985 through to current.
- Over 190 county community newspapers and regional titles.

Other packages are also available.

 www.eduserv.org.uk/newsbank

Library Systems

Nielsen BookData Online

BookData Online UK and Ireland and BookData Online International provide an independent source of comprehensive, timely, accurate book records. They can be searched quickly and easily and enable users to verify titles, check availability and inform their buying decisions. Universities benefit from preferential pricing with no annual price increases.

 www.eduserv.org.uk/nielsen

Ulrichs

Ulrichsweb is an authoritative source of bibliographic and publisher information of academic and scholarly journals, consumer and trade magazines, newspapers, bulletins and other periodicals.

Ulrich's Serials Analysis System (USAS) provides analysis and assessment tools which help a library to identify and maintain a quality, relevant serials collection for users. It can be used to assist in moving a library collection from print to electronic format, growing a collection, or to make cuts across a collection by identifying resources that are no longer used or needed. A subscription includes institution-wide access to Ulrichsweb.com free of charge. Pricing is fixed for three years.

 www.eduserv.org.uk/ulrichs

See our Chest Agreement for EndNote from Thomson Scientific on page 5.

WebDewey

WebDewey and Abridged WebDewey are library organisation systems used to keep your Dewey Decimal Classification (DDC) data up-to-date electronically. WebDewey offers easy-to-use access to the DDC system and related information, and searching and browsing capabilities. This agreement offers flexible licensing arrangements.

 www.eduserv.org.uk/webdewey

Your chance to shape future Chest Agreements

Have you found what you're looking for in this catalogue? If not, then please tell us what software and library resources you're looking for and help us to identify new Chest Agreements.

You can get involved in developing new agreements by posting your request on our wish list www.eduserv.org.uk/wishlists or joining one of our focus groups. We have focus groups on:

- Security software
- Maths and statistics software
- Business and marketing library resources
- Engineering library resources
- Law library resources
- eBooks
- Virtualisation

To find out more, join one of these groups, or to suggest a new group, please contact Jenny Carroll by email jenny.carroll@eduserv.org.uk or Tel: 01225 470 430.

About Eduserv

We are dedicated to developing and delivering technology services for education and the public sector. We are a not-for-profit organisation and registered charity, governed by a board of Trustees.

We fulfil our charitable mission by providing services for the public benefit. These include:

- Access and Identity Management
- Licence Negotiation
- Web hosting
- Web content management and development

Tel: +44 (0)1225 470 523

Email: help@eduserv.org.uk
