Interdisciplinary Applications

Introduction

The bibliographic database PsycINFO is published by the American Psychological Association and contains abstracts of articles selected from nearly 2,000 journals published worldwide. A widely used source of information for psychologists, PsycINFO is also a rich source of interdisciplinary material. Both educators and education researchers have discovered the value of PsycINFO for research in behavioral and psychological aspects of education, from preschool education to graduate school and adult learning.

Search Results: Selected Citations

Functional neuroanatomy of impaired reading in dyslexia.

By Salmelin, Riitta; Helenius, Päivi, *Scientific Studies of Reading*, 8(3), Jul 2004, 257-272.

Individual differences in learning: Cognitive control, cognitive style, and learning style.

By Price, Linda, *Educational Psychology*, 24(5), Dec 2004, 681-698.

Toward a culture-sensitive pedagogy: Emergent literacy learning in Chinese-English bilinguals in America.

By Ruan, Jiening. *Language, Culture & Curriculum*, 16(1), 2003, 39-47.
